## Building an intercultural and plurilingual school

### THE SCENARIO

*A new United Nations Transnational School (UNTS) is opening in a city somewhere in the middle of our vast, superdiverse and globalised world. What makes this city special is the fact that its population is made up of citizens from all over the globe. We are therefore in a melting pot of cultures, where people from different heritages, with different languages, traditions and ways of life live together peacefully. The school to be opened is a comprehensive school that is open to all pupils in the city from primary level onwards and enables all educational qualifications to be obtained in the course of twelve school years.*

**CREATE** a culturally and linguistically inclusive, fair and diverse educational space for all pupils

**RETHINK** and overcome monocultural and monolingual school practices

**COMBINE** your knowledge in interculturality and plurilingualism

### YOUR MISSION

Your aim is to design a school program that meets the needs of these pluricultural and plurilingual pupils:

- **Promote plurilingualism** in the entire school landscape including its language profile.
- **Create a diversity sensitive learning environment** and strengthen the pupils' intercultural competences.

### KEY FACTS

**WHAT?:** Virtual Simulation Game for teacher training students

**WHEN?:** 15.-19.07.2024 (9am-4pm CET)

**FORMAT:** online (via Zoom)

### ACTIVITIES:

- Theoretical research on interculturalism and plurilingualism
- Discussing and presenting ideas
- Working in transnational teams
- Planning, structuring and organising in teamwork
